Re: U. S. Department of Energy Access to Ruetgers-Nease Chemical Company,  
Inc. Property Near Fernald, Ohio

Dear Ms. Olsheim,

This letter is to confirm that Ruetgers-Nease Chemical Company, Inc. consents to the United States Department of Energy (USDOE) and its employees and authorized representatives entering and having continued access to the above captioned Ruetgers-Nease property on the basis set forth in my letter to you of May 31, 1990 and your reply letter dated June 15, 1990 in order to accomplish the following purposes:

1. the measurement of water levels in two existing wells/piezometers;
2. the installation of one monitoring well at a location mutually agreed between the USDOE and Ruetgers-Nease; and
3. the taking of such samples as may be determined to be necessary.

I understand that the USDOE has designated Andy Avel, Deputy Environmental Manager (telephone number: (513) 738-6161), as its primary contact for purposes of coordinating access and the above activities (including split sampling, sampling schedules and locations, and reporting test data), and that Ruetgers-Nease's primary contact for these purposes will be its Manager for Environmental Services, Steven Foard (telephone number: (814)-238-2424). William Stevens has advised that Mr. Avel will contact Steve Foard shortly to arrange the details of access and I have alerted Steve to expect this call.

Thank you for your cooperation and assistance in this matter.

Very truly,

Howard Greenberg
